## **The collection**

The Abstract Expressionist movement of 1950s New York made a huge impact on the art world. Its works have an energy, a monumental scale and an expressive freedom. In the making of those strong images, the canvas moved from the easel to the floor and the painting was an event as well as a work of art. The journey towards the artwork was just as important as the piece itself.

Mark-making, collage and the aesthetics of chance transfer readily to the floorscape. Tilted lines create new shapes in an unpredictable way to disrupt the mechanical precision and hand painted strokes soften the logic of the basic pattern. The balance of chaos and control adds something new to simple geometry.

In this Artworks collection, the multi-level loop construction defines shape, brushstrokes and layers perfectly with a beautiful visual

texture. The artistic inspiration is reflected in three co-ordinated patterns from simple, solid colours, soft tonals to graphic contrasts. The contemporary colour palette of fresh neutrals, complimented by dark shades for a sharp look makes it easy to combine different patterns in a unique composition of shape and colour.

Artworks is available as carpet tiles, planks, wall-to-wall carpet and the innovative Figura shapes. All designs come in nine contemporary colours carefully chosen for their ability to combine into unique compositions. Cradle to Cradle Bronze Certified®, crafted from regenerated and regenerable yarn and fitted with our patented Ecotrust backing, the collection perfectly suits your sustainable flooring project. **Combination  
and quality options**

The Artworks collection is coordinated across patterns and colour families and the tiles, planks and wall-to-wall carpet options offer practical opportunities to make unique and exciting combinations. Combine simple solid colours with more graphic layouts to define areas and create a unique and inspiring flooring solution.

You can also have the Artworks patterns in other constructions that'll match your specifications perfectly. Choose among various tufted cut or loop pile structures of which the multi-level loop construction comes as standard in the Artworks collection.

## **Carpet for any specification**

The Artworks designs can also be combined with other Ege Carpets collections. We can help you set new standards in floor design by combining different collections into creative and distinctive design solutions that'll fit any practical need, taste and budget. Use the carpet as one of your key building stones in creating the atmosphere you have in mind not only in terms of design and colour, but also in terms of quality, texture and feel.

At Ege Carpets, you'll find many functional qualities, aesthetic colours, beautiful patterns and cool design collections in tiles, planks and wall-to-wall carpet. We offer a wide range of flat woven carpets and shags in many different colours, exciting multi-level loop structures as well as tufted cut and loop pile constructions with amazing design options thanks to our advanced production technology.

## Waste isn't waste until it's wasted

We believe in circular thinking and in keeping as many resources as possible in a closed loop. Waste is one of the world's major environmental challenges, but to us waste is also a resource.

We turn used plastic bottles into our Ecotrust tile backing. Bottles are transformed into a soft, yet strong PET felt material that is long lasting and has great acoustic performance. All our carpet tiles come with this unique, patented backing and some even with a 100% recycled adhesive made from used or broken car

windows that also makes it easier to recycle the carpet at end-of-life.

With Ege Carpets, you can select from a wide range of collections featuring regenerated and regenerable yarn made from industrial nylon waste such as used carpets, textiles and discarded fishing nets. Many of our carpets are also part of our revolutionary take-back concept Ege CircleBack where 95% of your used carpet can be reused and recycled.

## Let's weave a greener future

### Our long-term ambition

We want to create the world's most sustainable carpets. It's an ongoing process where we continuously set up new goals and initiatives within five focus areas. Read more about our ambitious 2030 goals at [egecarpets.com](https://egecarpets.com).

### Ege CircleBack

With our revolutionary take-back concept more than 95% of your old carpet can be recycled in various ways instead of ending up as waste. Ege CircleBack is available for a selection of our carpets and we keep adding more collections to the concept.

### Cradle to Cradle

All our carpets are Cradle to Cradle Certified®. The idea behind Cradle to Cradle is that the Earth's finite resources shouldn't go to waste. They should be re-used in new contexts, with no detrimental effect on people or the environment.

### Indoor Air Comfort Gold

All our carpets are Indoor Air Comfort Gold certified, showing compliance of product emissions with the criteria of many of the voluntary specifications issued by the most relevant ecolabels and similar specifications in the EU. Gold certified products are best-in-class for low emissions and good for indoor air quality.

### EcoVadis

Our sustainability excellence has been recognised by EcoVadis with the highest score in its class. EcoVadis is the world's leading sustainability rating agency, and they rank the CSR performance of 100,000 companies in 160 countries. The Platinum ranking puts us in the top 1%.

### Terms and conditions

The Artworks collection features three patterns, each in nine beautiful colours. Available as carpet tiles, planks, Figura and wall-to-wall carpet, the collection can take on very different expressions. The multi-level loop structure made from regenerated and regenerable yarn defines the pattern, adding depth and texture to the carpet while delivering outstanding quality, great comfort and acoustic benefits.
